

**Computer Science:** Distinguished Lecture Series

# TRAVERSING THE AI INNOVATION TO TRANSLATION JOURNEY: ADVANCING COMMON GOOD

with Nitesh Chawla from the  
University of Notre Dame

**NOVEMBER 18 | 11 AM**

Lavin-Bernick Center, Stibbs  
(Room 203)

This talk will present work on fundamental advances in AI, highlighting the innovation journey that encapsulates both opportunities and challenges that are inherent in harnessing the full potential of AI. The talk will address how this potential of AI helps in addressing a wicked problem and emphasize their work in healthcare and scientific discovery.

## ABOUT THE SPEAKER:

Nitesh Chawla is the Frank M. Freimann Professor of Computer Science and Engineering and the Founding Director of the Lucy Family Institute for Data and Society at the University of Notre Dame. His research is focused on AI and data science. He is a Fellow of ACM, AAAI, AAAS, and IEEE, and is the recipient of multiple awards. He is co-founder of Aanalytics, a data science software and cloud computing company.
